

PDF-OBJECTS

PDF-OBJECTS is a growing collection of artist selected *text-object* pairings.

Audiences are encouraged to pick up and engage the PDFs either alongside their accompanying objects or in a seating area more comfortable if they like. Please return the PDF to its companion object in the manner it was found. Instructions for each pairing are found in this exhibition guide.

Participating artists were asked to submit:

- a single PDF of a text that has significantly impacted their practice
- a description of a commonly available object under \$20
- instructions for the organizers to pair the PDF and object for display and audience engagement

PDF-OBJECTS is currently organized by Jason Lazarus (Florida) and Sean Ward (NY). Inspired by *Reading Room* (organized by Ward at Julius Caesar, May 2013), *PDF-OBJECTS* endeavors to become an intimate and itinerant body of knowledge.

Hey Jason!

So great to spend time hanging out last night. Hope you had fun the rest of your evening.

I've resolved my PDF Objects entry. I am going with the Hito Steyerl essay, "A Thing Like You and Me", 2010. For the object, a sickle comes to mind, of course, from the poem that introduces the piece.

I have chosen a folding sickle on Amazon: <http://amzn.to/1X5xzQ>

INSTRUCTIONS:

- The sickle should be hung, folded, blade closed, blade down, horizontally, on a wall or post. Simple L-screws are sufficient and its fine if they show.
- The PDF is to be printed in color, stapled upper left, with a hole punched in that same corner.
- The document should be hung from the center of the sickle with plain white string fastened with a nice bow on both ends. It is okay if people want to read the document.

Thanks, and see you soon!

1. a single PDF of a text that has significantly impacted their practice
I HAVE ATTACHED A PDF OF A SHORT STORY BY GABRIEL GARCIA MARQUEZ - THE MOST HANDSOME DROWNED MAN IN THE WORLD. IT HAS HAD SIGNIFICANT IMPACT ON MY SCULPTURAL PRACTICE AND HOW I CONSIDER THE PHYSICAL WORLD.

2. a description of a commonly available object (include approximate size/color)--the organizers will procure the
object locally if possible (or we will order your object online if necessary)
THE COMMONLY AVAILABLE OBEJCT I WOULD LIKE IS A COCONUT. THE KIND YOU BUY FROM THE STORE (HUSKED AND WITH THE WATER STILL IN IT).

3. instructions on how to pair the PDF and commonly available object for display and audience engagement
I WOULD LOVE IT IF THE PDF WAS PRINTED IN ON WHITE PAPER, FOLDED INTO QUARTERS AND HELD ONTO THE SIDE OF A COCONUT WITH A WIDE RUBBER BAND (EITHER PURPLE...LIKE THE ONES ON BROCCOLI AT THE SUPERMARKET, OR ORANGE....LIKE THE ONES USED IN THE USPS MAIL SERVICE).

*printed on "ultra lime" colored paper (via kinkos) && if possible, can you print landscape, with 2-pages per sheet + double sided.

OBJECT: *selfie stick* (aka handheld monopod, or extendable self portrait stick)

nothing too fancy or ornate - the more simple, basic, and elegant the better. (if you're not sure where to find one, i got mine at walgreens)

INSTALLATION INSTRUCTIONS:

- 1) extend the selfie stick to its longest reach.
- 2) lean the selfie stick again the wall at ~ 45° angle using the weight+force of the selfie stick to pin the print-out against the wall - no tape, clips, or pins used. just gravity/physics.
- 3) tips on installing:
 - use the short horizontal bottom part of the mount to support the print-out (as pictured).
 - i didn't have any problems when testing this setup, but you might need something on the floor so the stick doesn't slip. (if this happens, you can put a tiny piece of tape on the floor to act as a wedge to hold the stick in place.)

Instructions on Text and Object

1 Printing Text Out
Size of the paper: A4
Color of the paper: White
Color of the ink: Black

2 Binding Pages

The first fourteen pages should include, in order, work information and instructions in Korean and then English letters and words, beginning with 'I' and ending with 'The West and'.
Each of these pages should be flipped from front to back but still kept in order.
The remaining eleven pages should then be, in order, Korean letters and words, beginning with '동양과' and ending with 'ㄷ', and then work information and instructions in English.
These pages should remain as currently laid out (i.e. should not be flipped).
Now, combine the two sets of pages, with the first fourteen flipped pages coming first and the remaining eleven unflipped pages coming after.
Once ordered properly, the stack should be stapled twice on the lefthand-side with the staples running parallel to the left and right edges of the sheets.
The first staple should be placed 1 cm in from the left and 7 cm up from the bottom.
For the second staple, turn the stack of pages from front to back.
The second staple should then be placed 1 cm in from the right and 7 cm down from the top.

3 Object (Ball)
Size of the ball: Diameter about 20 cm
Weight of the ball: About 400 gram
Color of the ball: White ball with black patterns

Title of the piece is " Milk Care "

An explanation :

When my fish went belly up from constipation (their digestive track is directly connected to their buoyancy and balance), I had to pour half of the water from the fish bowl out to eliminate the pressure that had him upside down. And I had to point a fan towards him so that he had enough oxygen from as much water surface area as possible. The towel was used to keep from disturbing the fish - the dark from the towel kept him calm after the trauma of going belly up. I'm obsessed with this piece these days .

Attached is my pdf - John Steinbeck's Introduction to *The Log from the Sea of Cortez*.

1. My preference is to print this out in color so that it retains the faded color of the book - as seen in the pdf. Let me know if that makes sense.
2. Please place the pdf (rolled so that text is facing out) in an emptied, large jar of pickles. Keep pickle label on jar. Feel free to serve the pickles at the opening!
3. I've attached a picture to demonstrate how I'd like the pdf to look inside the jar.

4. My preference is for a large jar of Mt. Olive dills or "Hot Mixed" - something like this.

Following the guides along the edges of this page, cut the margins of each page of Douglas Crimp's essay "The Boys in My Bedroom" into fringe. Display the 3.4 ounce bottle of the boy band One Direction's signature celebrity fragrance "Our Moment" Eau de Parfum by sitting it atop the printed PDF.

Invite audiences to tear off a strip of the paper fringe on which they may spray the perfume. The resulting strip of scented paper should become embedded in the lives of the audience, kept in a pocket or bag, rubbing the scent into the fabric of their day to day experiences.

Procure a Fluorescent T12 U-Bend Bulb, 6" spacing.

With connector pins at top, have person #1 write "loren" vertically on the left tube in red marker. Write "goodman" vertically on the right tube in red marker. Take casual photo of name on light.

Have person #2 make corrections to the letter "o", in blue marker, by simply adding a line to the right side of the "o" to change it into an "a". Take another casual photo.

Person #1 should decide how to install PDF in relation to U-Bend bulb and install it. Take photo.

Person #2 can make any installation corrections to the PDF or Object as they see fit. Photo any changes.

I am sending a link to an EH Gombrich essay that I've always liked. Language is a little old but the thrust of the ideas is still fresh, and in some ways applicable to our current identity politics vocabulary. So pair this text with any piece of furniture -chair, mattress, table, cabinet-preferably broken, that you find in the alley. When you do find it, send me a photo if possible and I will suggest where to put the text.

My instructions are to put the sprayed gray orchid on top of the stack of the article, water it once, and if possible, let the water seep onto the paper below so it disfigures it in some way. If there is no hole in the orchid pot, you are welcome to pour some water on to stack so it appears that it happened. I basically want the two to touch and somehow affect each other.

Mapping Community Art by Pascal Gielen.

I'd like for you to purchase 2 colors of chalk, one to draw an axis (north = digestive; south = subversive; west = allo relational; east = auto relational). And then i would like for you or the audience to plot the other artworks in the exhibit (by last name of the artist for simplicity) on the axis. The pdf should be printed and hole punched in the top corners and have a string tied through it in a loop that can be used to hang the text nearby the axis drawing.

Hi Jason,

Ruby Thorkelson and I have our submission ready for the show. Here are the instructions:

1. The PDF is a copy of Gertrude Stein's "Pictures". We would like it printed on rose colored paper.
2. The object is a venus flytrap plant. Small. Just in a regular container, no paper, no dome. Ideally, someone can check on the plant periodically to see if it needs a bit of water. They don't need much. Depending on how long the show is up, it may or may not need to be feed a live insect. Sunlight is good, too, if there are windows.
3. Please place the plant on top of the PDF, which should be open to pages 86-87. The plant will hold it in place.

My PDF is "Sex In Public" by Lauren Berlant and Michael Warner.

I'd like it to be printed twice: once as black text on white paper, laminated and a second time as white text on black paper. Neither should be stapled. [REDACTED]. The black paper version should be rolled up and tied with a long piece of rainbow ribbon (like this, the more thick and satin-y the better!) and hung from the ceiling so that it hovers around 3' above the laminated floor.
